## **DETAILED ACTION**

### ***Specification***

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

### ***Claim Objections***

2. Claims 1-7 are objected to because of the following informalities:

Claim 1, line 19, it is suggested to replace "the plurality of interpolation means" with "a plurality of interpolation means".

Claim 3, line 18, it is suggested to replace "the plurality of interpolation means" with "a plurality of interpolation means".

Claim 4, line 19, it is suggested to replace "the plurality of interpolation means" with "a plurality of interpolation means".

Claims 5 and 6 should be dependent to claim 4 for proper dependency.

Claim 7, line 19, it is suggested to replace "the plurality of interpolation means" with "a plurality of interpolation means".

***Allowable Subject Matter***

3. Claims 1-7 would be allowable if rewritten or amended to overcome the objections set forth in this Office action.
